01. LOGO

The DIGI-TEXX logo is made up of 5 letters standing next to each other **D-I-G-I-T-E-X-X** combined with 6 square dots symbolizing the image of electronic technology circuits and also representing the 6 services that DIGI-TEXX is currently providing. , and the tag-line "advanced digitizing services" partly confirms the company's special role in applying smart digital technology to its services.

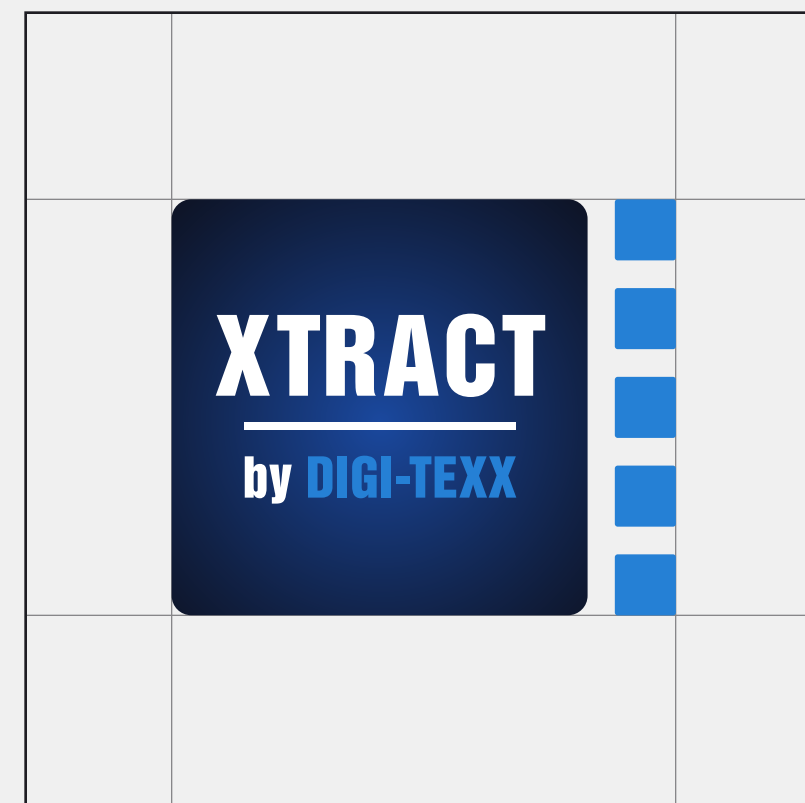

Logo Variant Version

Logo variation is the art of rearranging your Logo design without changing the design structure. So variations can work in multiple locations, providing your brand with versatile and recognizable images to promote your brand in different formats.

03. LOGO AND STANDARD SIZE SYSTEM

When appearing next to other symbols, care should be taken to keep the logo within the required distance of at least 1/2 the height of the logo symbol (similar to the edges of the product).

Minimum size of logo

Helps the logo display fully, clearly and without loss of detail when used at small sizes. (Minimum size 10mm)

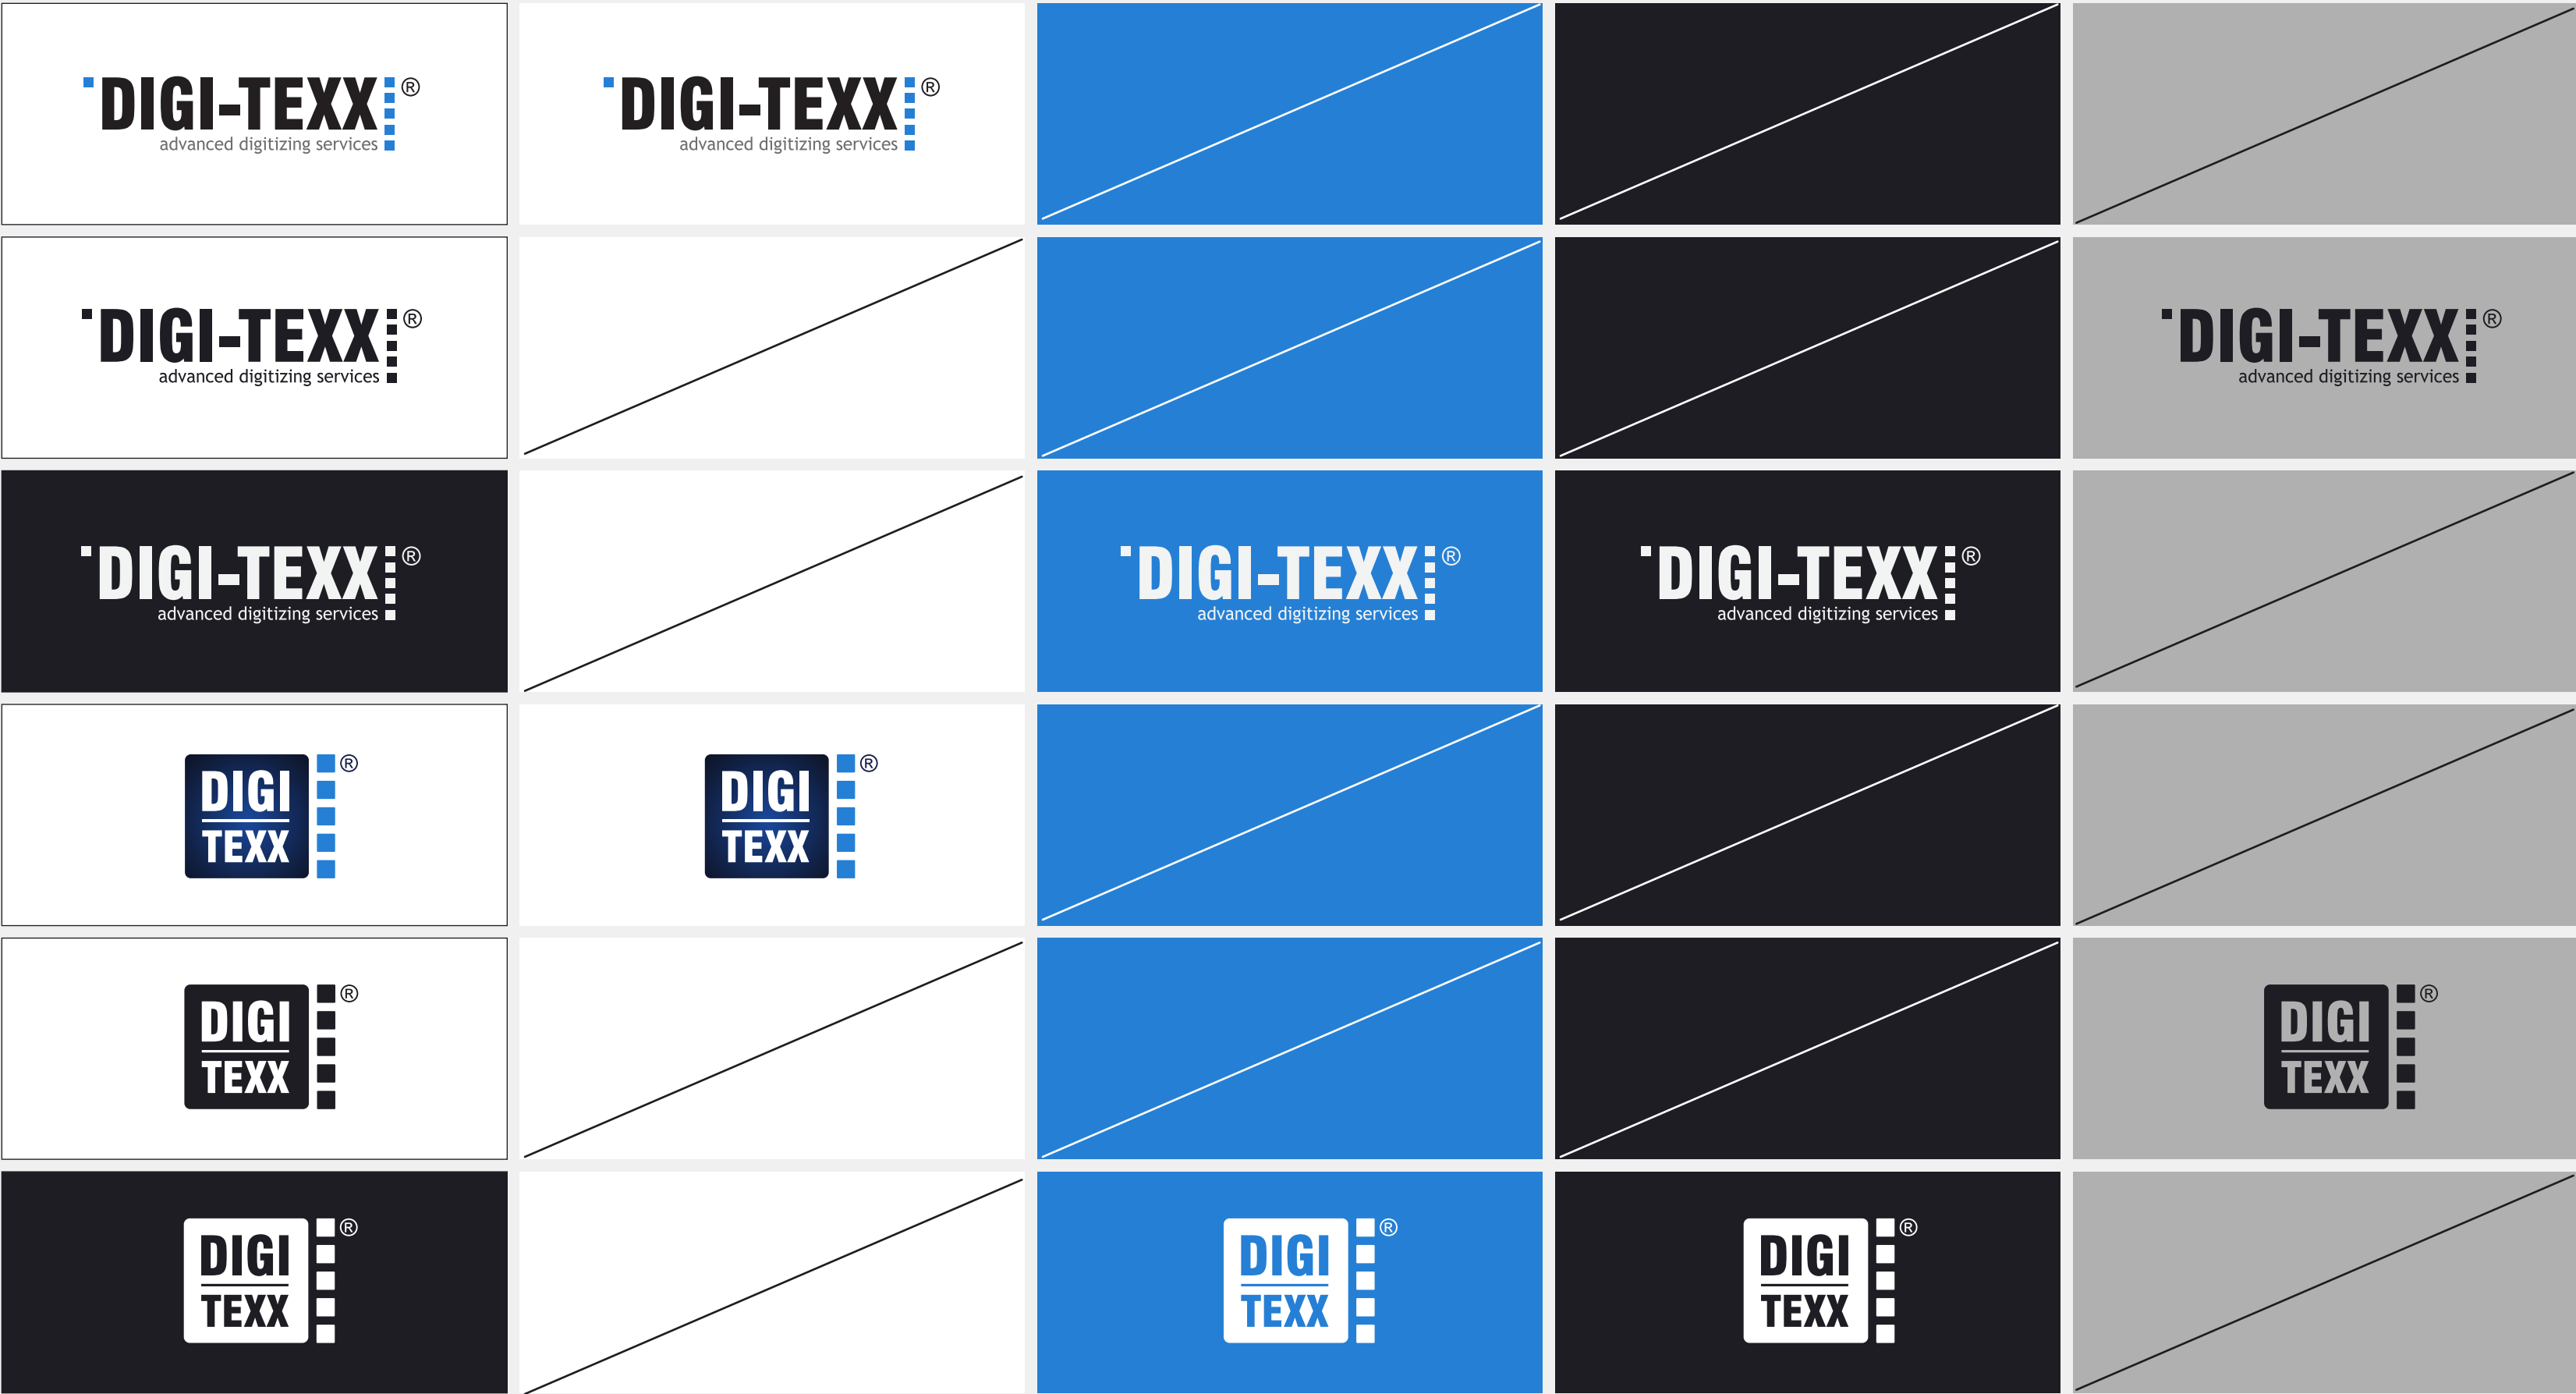

04. LOGO COLOR ON COLOR BACKGROUNDS

Logos are recommended to be used on white, light-colored backgrounds. On a characteristic color background, the logo is used according to regulations in the identification system.

On backgrounds similar in color to the logo, dark backgrounds, the logo should be used in a monochrome version (white logo) or a black version of the logo as long as the logo is clearly visible.

Next are some possible options when applying icons on a number of different colored backgrounds.

04. LOGO COLOR ON COLOR BACKGROUNDS

Note: In addition, black/white logos are used for applications where the symbol only appears in a single color such as: black and white marketing advertising publications, printed on special materials such as engraving metal, plastic, wood, ...

11. BRAND VOICE

Core

- **Trustworthy with Data-Driven:** Our target audiences are business decision-makers in various industries seeking BPO and digital solutions. Therefore, the message we deliver must be reliable, and proven with real statistics.
- **Informative and Efficient:** All communications must be packed with valuable information for readers.
- **Innovative and Direct:** We deliver the messages clearly, powered with creativity.

Supporting

- **Tone:** Professional, confident, and informative with a touch of thought leadership.
- **Language:** Clear, concise, and action-oriented.

*We are not business as usual, we accompany other businesses and develop sustainable growth.
Keep your messages smart, direct, and practical.*

12. PERFORMANCE LANGUAGE

Too Complicated

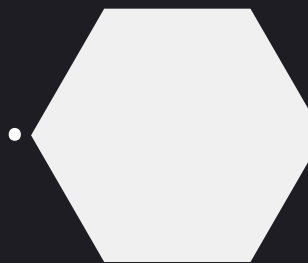

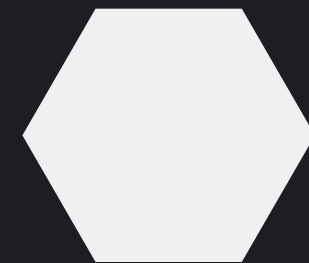

This will make your message hard to memorize.

Innovative & Direct

We deliver business jargon but avoid overly technical terms.

Too 'Salesy'

Our audiences have seen too many ads, so try not to annoy them with the effort to sales.

12. PERFORMANCE LANGUAGE

DO'S

Keep the headline simple and direct

Be innovative when providing valuable business details

Strong CTAs but with a touch of creativity

Provide an audience-oriented communication journey

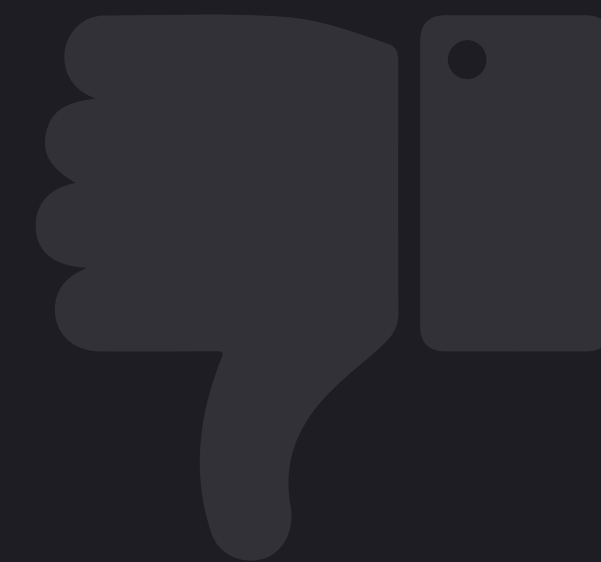

DON'T

Pack too many messages into one headline/ad/social post

Pour in a massive amount of academic knowledge

Sound desperate for actions (click, download file)

Be vague with an incomplete message
